

Dallas area church provides gateways

They call them Signature Programs at Northway Christian Church, but you might call them God's love made visible. The church works to provide housing and assistance to homeless families through Family Gateway. Another partnership of the church is their work with Southwest Good Samaritan Ministries, a refugee resettlement program. But that's not all - the youth will be "getting dirty for Jesus" in Joplin to help repair tornado damage in the summer of 2012 and the church partners with Jarvis Christian College as well.
