

## Global Ministries Participation in Interregional Gatherings

Global Ministries has offered \$4,000 to support the presence of our international sisters at interregional events.

If you accept this \$4,000 you will be expected to use it to

- Pay for travel to bring at least two international sisters to event
- Provide hospitality and housing
- Cover all costs of event including registration and food

### Considerations:

If language is a problem, it's best to select two women from the same country

If they speak English, you can select one from two different countries.

If you would like to invite more than two women, you can use the funds to support their visit and pay for the balance out of the event's funds.

Communicate with Global Ministries about the gifts of invited guests to determine how you might best invite them to participate, i.e. speaking to plenary, leading a workshop, etc.

If you would like to support their itineration, you can contact Global Ministries who will help organize it. If this itineration can be part of the promotion of a Global Ministries initiative, there may be additional funds to cover that itineration. Again, this can be discussed with Global Ministries staff.

If you would like to invite home-based staff to participate, they will do so at their expense

If you would like to invite mission co-workers to participate, they will do so at their expense.
