Children Worship Wonder & Welcome

Children Worship Wonder & Welcome is an exciting approach to faith formation that recognizes children as spiritual beings who already have a relationship with God.

As leaders of Children Worship Wonder & Welcome we have the privilege to guide children in growing their already existing relationship with God, while experiencing the Divine presence, and finding themselves in the stories of the faithful. Children hear the Biblical narrative in sensorimotor ways, allowing them to enter into the stories, and to form responses out of their own life experiences. Additionally, children are invited to learn the depth of church tradition and have opportunities to participate in worship practices in developmentally appropriate ways.

CHILDREN WORSHIP WONDER & WELCOME

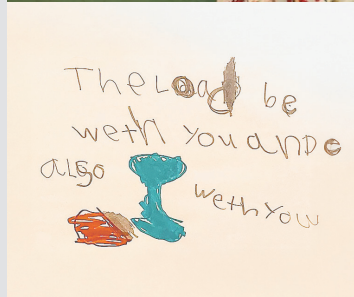

Children Worship Wonder & Welcome is designed for use during children's (or Junior) church, extended session-type programs, and can also be used in Christian Education classes and after school programs. Using the model of multi-age grouping, CW3 can be used with children as young as 3 years old; children of various ages share together in one children's worship center, while still accommodating children's individual developmental needs.

Thanks to a generous grant from the Lilly Endowment Inc., Disciples Home Missions will continue to expand the influence of Children Worship Wonder & Welcome by focusing on these goals in the next several years:

- Reducing financial barriers for interested congregations
- Increasing our welcoming of those with various dis/abilities
- Attending to the needs of a more diverse church
- Increasing worship participation through music
